Grammar

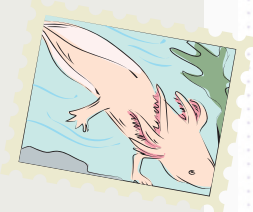

Defining Relative Clauses

Defining relative clauses give essential information about who or what we are talking about. They go after the nouns they are referring to.

An engineer is a person *who builds structures*.

Who is the relative pronoun used to offer essential information about a person.

An engineer is a person *who* builds structures.
A doctor is a person *who* treats sick or hurt people.

In informal English, you can use *that* as a synonym of *who*.

An engineer is a person *that* builds structures.
A doctor is a person *that* treats sick or hurt people.
